Important facts about your policy

Pre-existing conditions

We will not deny benefits for pre-existing conditions. This does not preclude us from exercising other remedies available at law, in equity or in contract because of misrepresentations. A pre-existing condition is a condition of the insured for which medical advice or treatment was discussed with, recommended by, or received from, any provider of health, psychological or other care services within six months preceding the issue date.

Policy loans and withdrawals

Long-term care benefits and death benefit will be reduced if any withdrawals or loans are taken. Taking loans or withdrawals may jeopardize your policy's performance and guarantees.

Interest credits and tax-deferred growth

Your policy cash value will increase each month due to a guaranteed 2% credited interest rate and will decrease due to policy charges. Current interest rate may be higher.

Tax information

All references to tax benefits are based on the Lincoln understanding of current tax laws and regulations. Consult your tax financial professional for additional information.

Income tax-free long-term care benefit

Benefits are generally paid income tax-free under Internal Revenue Code Section 104(a)(3). Choose between a minimum 3–6 years of long-term care benefits based on the duration of the Long-Term Care Benefits Rider (LTCBR) option that you choose. Long-term care coverage will continue as long as you remain eligible or until your entire long-term care benefit is exhausted.

Income tax-free death benefit

If you never need long-term care and all planned premiums are paid to keep your policy in-force, a death benefit is paid to your beneficiaries, income tax-free under Internal Revenue Code Section 101(a)(1). If your entire specified death benefit amount has been used to pay for long-term care, your beneficiaries receive a residual death benefit.

Lincoln *MoneyGuard Fixed Advantage*SM is a universal life insurance policy with a Long-Term Care Benefits Rider (LTCBR) that accelerates the specified amount of death benefit to pay for covered long-term care expenses and continues long-term care benefit payments after the entire specified amount of death benefit has been paid. The return of premium options are offered through the Value Protection Endorsement (VPE) available at issue; Base option (1) and Graded option (2) are included in the policy cost. Any additional surrender benefit provided will be adjusted by any loans/loan interest/loan repayments, withdrawals taken, and claim payments made. The cost of riders will be deducted monthly from the policy cash value. Renewability, Termination and Cancelability: The LTCBR is noncancelable. This means you have the right, subject to the terms of your policy and rider(s), to continue these riders as long as your policy stays in-force. The Lincoln National Life Insurance Company cannot change any of the terms of your policy and rider(s) on its own and cannot increase the monthly rider charges or monthly inflation charges. If your policy enters a grace period, we will allow 61 days to pay a premium sufficient to prevent your policy from lapsing. Long-term care benefit riders may not cover all costs associated with long-term care costs incurred by the insured during the coverage period.
